Abraham Lincoln - The Best way to predict your Future is to create it

Martin H. Fischer - All the world is a laboratory to the inquiring mind.

Confucius - Learning without thought is a labor lost, thought without learning is perilous.

Denis Waitley - All of the top achievers I know are life-long learners. Looking for new skills, insights, and ideas. If they're not learning, they're not growing and not moving toward excellence

Brad Gerrard - " Believe in yourself, be strong, never give up no matter what the circumstances are. You are a champion and will overcome the dreaded obstacles. Champions take failure as a learning opportunity, so take in all you can, and run with it. Be your best and don't ever ever give up."

Plato - Do not train children to learning by force and harshness, but direct them to it by what amuses their minds, so that you may be better able to discover with accuracy the peculiar bent of the genius of each.

Albert Einstein - It is the supreme art of the teacher to awaken joy in creative expression and knowledge.
