## SUMMER HOLIDAY HOMEWORK

### Class 4

### MATHS

1. Make your family tree (from your grandparents to you) on an A4 sheet. Stick passport (or stamp) sized photos of each of the family members and mention their names and ages below their photos. Then, perform the following operations:

- Add the age of the eldest and youngest member of your family.
- Subtract the age of the youngest member of the family from the eldest member.

2. Find and add the population of any three countries.

3. Represent the following numbers on the abacus:

- 35809
- 22437
- 10026

Note: Use ice cream sticks and bindis to make the abacus on an A4 sheet.

**Compile all the three questions in a stick file.**

### SCIENCE

1. Prepare your own herbarium.

Collect fallen leaves of 5-6 different plants and press them between folds of newspapers for 2-3 days. Glue those leaves in an A4 sheet and write the name of the plants.

2. Fill in the blanks (Name different habitats).

- In Kerala and Goa, plenty of coconut trees are found. Those are \_\_\_\_\_ regions.
- In Kashmir and Himachal Pradesh, many evergreen, straight and cone-shaped trees are found. Those are \_\_\_\_\_ regions.
- In Rajasthan and some parts of Gujarat, thorny forests are found. Those are \_\_\_\_\_ regions.
- In West Bengal, mangrove plants are found in the Sunderban forest. That is a \_\_\_\_\_ region.

**Compile both the questions in a stick file.**
