

CAMBRIAN PUBLIC SCHOOL  
KANKE ROAD, RANCHI  
SESSION (2024-2025)  
CLASS-III  
SUBJECT- Maths  
LEARNING PLAN OUTCOMES

Serial Number	Month	Name of the Chapter	Learning Outcomes
1.	April	Chapter – 1. Revision Chapter – 2. Numbers	<ul style="list-style-type: none"> <li>• Recapitulation of the previous exercises.</li> <li>• To understand the concept of reading and writing of the numbers.</li> <li>• Children will also understand the concept of forming and comparing of numbers.</li> </ul>
2.	May	Chapter -3. Working with Numbers	<ul style="list-style-type: none"> <li>• To understand the concept of successor and predecessor.</li> <li>• To learn the concept of forming smallest and biggest numbers.</li> <li>• To understand about odd and even numbers</li> </ul>
3.	June	Chapter -4. Roman Numeral Chapter -5. Addition of Numbers	<ul style="list-style-type: none"> <li>• To understand the symbols used to write the Hindu-Arabic Numerals in Roman Numerals.</li> <li>• Children will learn about the terms used in addition.</li> <li>• Children will learn to add 4-digit numbers with and without carrying.</li> <li>• They will also learn about the properties of addition</li> </ul>
4.	July	Chapter -6. Subtraction of Numbers	<ul style="list-style-type: none"> <li>• Student will be able to check subtraction by addition.</li> <li>• Student will able to subtract 4-digit numbers.</li> <li>• Perform addition and subtraction together</li> <li>• Solve word problems.</li> </ul>
5.	August	Chapter -7. Multiplication	<ul style="list-style-type: none"> <li>• Children will understand the properties of multiplication.</li> <li>• They will also learn multiplication by multiples of 10,100 and 1000 without actual multiplication.</li> <li>• They will solve word problems based on multiplication.</li> </ul>
6.	September	Chapter-10. Geometry	<p>Children will be able to know</p> <ul style="list-style-type: none"> <li>• Simple concepts of geometry.</li> <li>• types of straight line.</li> </ul>

			<ul style="list-style-type: none"> <li>• difference between line, line segment and array.</li> <li>• measuring and drawing a line segment</li> <li>• to draw open and closed figures, polygons and solid shapes.</li> </ul>
7.	October	Chapter-8. Division	<p>Children will understand the relation between division and multiplication</p> <ul style="list-style-type: none"> <li>• To know the properties of division</li> <li>• Term used in division.</li> <li>• To verify division.</li> </ul> <p>Long division method with - &amp; 4-digit numbers</p>
8.	November	Chapter-9. Fractions	<ul style="list-style-type: none"> <li>• Students will be able to understand fractions.</li> <li>• They will also understand the concept of numerator and denominator.</li> </ul>
9.	December	Chapter-11. Money Chapter-12. Our Clock	<ul style="list-style-type: none"> <li>• Students will learn to convert rupees to paisa. Addition, Subtraction and multiplication based on money.</li> <li>• Students will be able to read and write time.</li> <li>• They will also learn to convert time. To know the concept of A.M and P.M and Calendar.</li> </ul>
10.	January	Chapter-13. Measurement	<ul style="list-style-type: none"> <li>• Children will understand about the measurement of length, weight and capacity.</li> <li>• They will also know to the standard units of length, weight and capacity.</li> <li>• Students will also learn conversion of length, weight and capacity</li> </ul>
11	February	Chapter-14. Pictorial Representation of Data  Chapter-15. Patterns	<ul style="list-style-type: none"> <li>• Children will understand about data handling, pictographs. tally marks.</li> <li>• They will also learn about patterns in numbers, words, shapes etc.</li> </ul>
